## Colony 5

Civil wars over the world, powerful unions interfere  
It's a dangerous situation for us all  
Atomic bombs are ready to be launched  
It's time we unite, it's time we scan the universe  
We had to move on

We seek colony 5

We have the technology for destruction  
Can we use that knowledge to survive?  
Reverse the process and make something great  
Our calling is not to die  
We have to find a way to survive

We seek colony 5  
The time is right  
Last chance for mankind  
To survive

We seek colony 5  
The time is right  
Last chance for mankind  
To survive

We seek colony 5

Send a satellite out in space to find the answers  
Are we alone, can we find an equal place?  
We have to move along before it's too late  
Unite, lay down your weapons  
This is the chance to find a better way

We have the technology for destruction  
Can we use that knowledge to survive?  
Reverse the process and make something great  
Our calling is not to die  
We have to find a way to survive

We have the technology for destruction  
Can we use that knowledge to survive?  
Reverse the process and make something great  
Our calling is not to die  
We have to find a way to survive

# Trust You

Trust you  
Why did I trust you left me here to die  
Like in a desert without the most significant life supply

We were meant to be, for eternity  
At least I thought it was the way we walked  
Through pleasure and pain,  
but most the pain  
This world are giving us  
Why can't we move on?

To the other side  
The side you convinced me exists  
The way to eternity together we shall leave

To the other side  
The side you convinced me exists  
The way to eternity together we shall leave

Trust you  
Why did I trust you left me here to die  
Like in a desert without the most significant life supply

Why did I trust you left me here to die  
Like in a desert without the most significant life supply

All those lies you fed me with,  
I believed you what a fool I have been  
The paradise on the other side  
All the planning we made about the suicide

Trust you  
Why did I trust you left me here to die  
Like in a desert without the most significant life supply

Why did I trust you left me here to die  
Like in a desert without the most significant life supply

Trust you  
Why did I trust you left me here to die (Trust you)  
Like in a desert without the most significant life supply (Trust you)

Why did I trust you left me here to die (Trust you)  
Like in a desert without the most significant life supply (Trust you)

Why did I trust you left me here to die (Trust you)  
Like in a desert without the most significant life supply (Trust you)

Why did I trust you left me here to die (Trust you)  
Like in a desert without the most significant life supply (Trust you)

Why did I trust you left me here to die (Trust you)  
Like in a desert without the most significant life supply (Trust you)

Why did I trust you left me here to die (Trust you)

Like in a desert without the most significant...

# Suicidal

It's late again  
I'm finishing up and going to bed  
Completely drained  
My body is like a plant before the rain  
No life sparks left  
Suicidal, I'm crawling near the edge  
Nothing seems nice anymore  
I'm so fucked up  
So sorry for the world

Suicidal that's what I am  
I have no feelings left for life itself  
My monotonous life will disappear  
Bring down Jesus and let him slave me before my god

What have I done so wrong  
I try to live my life the way I was taught  
Come kick me hard  
Kick me until I wake up  
No life sparks left  
Suicidal, I'm crawling near the edge  
Nothing seems so right anymore  
I'm so fucked up  
So sorry for the world

Suicidal that's what I am

Suicidal that's what I am  
I have no feelings left for life itself  
My monotonous life will disappear  
Bring down Jesus and let him slave me before my god

Suicidal that's what I am  
Suicidal that's what I am  
Suicidal that's what I am  
Suicidal that's what I am

# The Bottle

Don't go away  
I'm trying the best I can  
It's not easy to get out of this  
It reminds me every minute I breathe

It was going so well for us  
Maybe a little too much of parties  
Every time I needed a little bit more,  
and who's to blame me for that

The beer felt too soft,  
the booze was welcomed by my throat  
And ever since it has been more and more  
It's the most important thing for me

Make me understand what I have to do  
I can't stand this anymore  
The only things I care to do,  
is to fill my body with booze

I can't understand how you're pulling through  
For every lie that I've told you  
All those times I've stumbled in and throwing up in our bed  
All those times trying to make me stop  
And every time I disappoint you  
But this time I'm going to succeed or leave

Make me understand what I have to do  
I can't stand this anymore  
The only things I care to do,  
is to fill my body with booze  
It tears on my feelings for you  
It's the bottle I love not you  
Try to convince me that you are the only one

Make me understand what I have to do  
I can't stand this anymore  
The only things I care to do,  
is to fill my body with booze  
It tears on my feelings for you  
It's the bottle I love not you  
Try to convince me that you are the only one

## Liquid Love

Can't believe my eyes  
She's so sweet and still so clean  
Had to make my move  
I had to get you this once  
No time to lose

Do you mind if I put my arms around you  
Would you be pleased if I took you home with me  
Do you mind if I gave you a kiss and touch you  
Then we make love until the sun will rise

And we wake up, looking at each other try to remember  
But the headache reminds me how drunk I was  
You are not so sweet and not so clean anymore  
I've got to get out  
Please can you leave

Do you mind if I put my arms around you  
Would you be pleased if I took you home with me  
Do you mind if I gave you a kiss and touch you  
Then we make love until the sun will rise

Do you mind (Do you mind)  
Do you mind (Do you mind)

Do you mind if I put my arms around you  
Would you be pleased if I took you home with me  
Do you mind if I gave you a kiss and touch you  
Then we make love until the sun will rise

Do you mind if I put my arms around you  
Would you be pleased if I took you home with me  
Do you mind if I gave you a kiss and touch you  
Then we make love until the sun will rise

Do you mind if I put my arms around you  
Would you be pleased if I took you home with me  
Do you mind if I gave you a kiss and touch you  
Then we make love until the sun will rise

Do you mind

# Be My Slave

I sometimes see my life just as a game  
The game is for real and affects you in an instant  
I choose the rules and you, you have to obey  
I'm the king and you are just a servant

I want to see you run, run from your fear  
I want you to become my servant for fear that I can thrust  
Erase your normal life, vanish in my world and I will feed you

Now we can see the star so bright  
The star that guide us to our lifeline  
It brings the godfull light over this world  
Soon the time will come, the time we have been waiting for

I want to see you run, run from your fear  
I want you to become my servant for fear that I can thrust  
Erase your normal life, vanish in my world and I will feed you

Together we are stronger than we wish to pretend  
Help me rule the world that I just gained  
Open all your senses for this cause and pray  
Gather followers and help them to restore what we make

Together we are stronger than we wish to pretend  
Help me rule the world that I just gained  
Open all your senses for this cause and pray  
Gather followers and help them to restore what we make

# Crackhead

So you thought you really were so cool?  
Everybody smoked, so why shouldn't you?  
Relax and feel so smooth  
The world was looking brighter now for you

Skip reality and live in your dreams  
It will soon become your worst nightmare  
Take control of yourself  
You know this can't go on  
Let this end before you find yourself as a crackhead

Won't you wake up just one day  
To see the world without decay?  
Heal the feelings you have left  
Change your life  
Change your faith  
Won't you make this true one day?  
Let us all see you change  
Raise your head up from the ground  
If you don't fight this now you'll die

I'm such a fool to think you would be listening to me  
I thought you were that bright girl who could see  
The consequences this will bring your needs  
But I was wrong

Skip reality and live in your dreams  
It will soon become your worst nightmare  
Take control of yourself  
You know this can't go on  
Let this end before you find yourself as a crackhead

Won't you wake up just one day  
To see the world without decay?  
Heal the feelings you have left  
Change your life  
Change your faith  
Won't you make this true one day?  
Let us all see you change  
Raise your head up from the ground  
If you don't fight this now you'll die

Won't you wake up just one day  
To see the world without decay?  
Heal the feelings you have left  
Change your life  
Change your faith  
Won't you make this true one day?  
Let us all see you change  
Raise your head up from the ground  
If you don't fight this now you'll die

## Stay Young

Until death do us apart and you sell your life  
For a wife, kids and a house, is this the meaning of life  
To make a family, raising a child, no not for me  
I want to be free, as free as I can be

I want to stay young, at least in my mind  
I want to feel free, to do whatever I want to do  
I want to party all night long, making love to all the girls  
That's what I want

You think you're going the right way, like most people do  
One day you take a close look at yourself and what do you see  
Was this your dream, to lock yourself up like this  
And stay together for the kids, that's not for me

I want to stay young, at least in my mind  
I want to feel free, to do whatever I want to do  
I want to party all night long, making love to all the girls  
That's what I want

I want to stay young, at least in my mind  
I want to feel free, to do whatever I want to do  
I want to party all night long, making love to all the girls  
That's what I want

At least in my mind  
I want to feel free, to do whatever I want to do  
I want to party all night long, making love to all the girls  
That's what I want

I want to party all night long, making love to all the girls  
That's what I want

I want to party all night long, making love to all the girls  
That's what I want

# Freedom

Why can't I understand you?  
You made me believe  
You showed me how to live  
But now you make me feel so sad  
For something I did ages ago  
I didn't mean to hurt you

I'm trying to make this heal  
Don't look down on me  
See me as I am  
I'm letting you go free  
I'm letting you go free

Sometimes I hear you cry  
If you could only trust me  
I will help you through  
Will you accept my words?  
It's a promise

I'm trying to make this heal  
Don't look down on me  
See me as I am  
I'm letting you go free  
I'm letting you go free

I'm trying to make this heal  
Don't look down on me  
See me as I am  
I'm letting you go free  
I'm letting you go free

I'm letting you go free  
I'm letting you go free

## Before I'll Give In

Should I be scared  
How do you all fight the thoughts about death  
The feeling of emptiness in our hearts  
Do we exist to be or go on to a higher place  
Or a lower and not so loved, we can call it hell

When I die will the emptiness eat me like alive  
Will there be a tunnel of light like a sign  
To guide the way to something greater than the mind  
I want some answers fill me in before I'll die

Who's to say how we choose the way we want to go  
Maybe even possible to reborn in different shapes  
It's all a question mark printed in my head  
I have to confess my sins before I'll give in

When I die will the emptiness eat me like alive  
Will there be a tunnel of light like a sign  
To guide the way to something greater than the mind  
I want some answers fill me in before I'll die

Will the emptiness eat me like alive  
Will there be a tunnel of light like a sign  
To guide the way to something greater than the mind  
I want some answers fill me in before I'll die

# Heal Me

Why, why is it so hard to explain?  
There's a hundred things I want to say  
There's no time  
It's no use  
The hardest things to do  
I can't stand it anymore  
I've been so abused

There's no time  
I've got no time to change the past  
You made it clear there's no room for me and you  
Why couldn't it last forever?

I can feel your presence, but you are so far away  
You could never stay a broken heart  
I'm through with life this moment  
Heal me, make me understand  
I don't like your foot on my head  
Don't hurt me  
When I'm almost dead  
Never again

There's no time  
I've got no time to change the past  
You made it clear there's no room for me and you  
Why couldn't it last forever?

There's no time  
I've got no time to change the past  
You made it clear there's no room for me and you  
Why couldn't it last forever?

There's no time  
I've got no time to change the past  
You made it clear there's no room for me and you  
Why couldn't it last forever?

# Friends

You thought you could make this up one day, all the pain you gave me  
When you talked behind my back  
I used to call you my friend, but that was long ago  
Now I know you as my enemy, and that can't be restored

What did you gain when you stabbed me in my back  
Is that what you call a friend?  
Then you're better off alone  
What did you gain when you broke the trust I gave  
Is that what you call a friend?  
Then you're better off alone

You really fooled me, I gave you my innermost thoughts  
That way I trusted you, like friends should do  
You used it against me, like an enemy would do  
Leave me alone  
I don't know you anymore, and that can't be restored

What did you gain when you stabbed me in my back  
Is that what you call a friend?  
Then you're better off alone  
What did you gain when you broke the trust I gave  
Is that what you call a friend?  
Then you're better off alone

What did you gain when you stabbed me in my back  
Is that what you call a friend?  
Then you're better off alone  
What did you gain when you broke the trust I gave  
Is that what you call a friend?  
Then you're better off alone

## Last Chance

Life is hard, for some people it's even a hell  
The smell of lack of hope every day I pass this way  
Begging for a way to get its own addiction relieved  
No minor roof over its head covered with some plastic bags  
Constitutes its bed

The last chance  
Look inside you  
Analyze yourself  
Review your life  
Find out went wrong  
What is causing you this sad song?

Life is hard, for some people it's even a hell  
To wake up spending the next hours working somewhere  
Most people get used to this way of life  
Only a few try to break the chain  
Break themselves free from this useless way to find them with no fear

The last chance  
Look inside you  
Analyze yourself  
Review your life  
Find out what went wrong  
What is causing you this sad song?

Let your sense show you the way  
Look inside you  
Review your life  
Find out what went wrong  
What is causing you this sad song?

Let your sense show you the way  
Look inside you

The last chance  
The last chance  
The last chance  
The last chance

## Second Hand

I always see you as my queen  
I could do everything for you to make you pleased  
I saw you as the most precious thing I could have  
I thought you were reflecting the same feelings I do for you  
But, I was wrong  
Yeah, I was wrong  
I was second hand to you all along

I saw you sneak away in a car  
With the darkest windows but even then  
I could see it so bright like stars  
I followed you like the shadow I am  
And what I saw tore me apart  
I was your second choice and not your star

And now I can see it there when I held your hand  
I can feel the dirt you're covered in all along  
I despise you I don't like you anymore  
And still I held on to you like your second hand clothes

And now I can see it there when I held your hand  
I can feel the dirt you're covered in all along  
I despise you I don't like you anymore  
And still I held on to you like your second hand clothes

And now I can see it there when I held your hand  
I can feel the dirt you're covered in all along  
I despise you I don't like you anymore  
And still I held on to you like your second hand clothes
