Dinner Without Grace

Immaculation in your eyes
Depravity within your mind
A suffer from a devotional alliance
Purity is in your smile
A lack of confidence beneath your shine
Another heavenly defiance

They're telling you lies
Privation within their rhymes
Don't wait for god's embrace
Let's have a dinner without grace
They're telling you lies
Deceit is in their mind
It's time that in God's face
We have a dinner without grace

Morality will fall apart
A greater scheme deep in your heart
No time for innocence and pride
Sincerity you have to prove
Dissimulation is too close to truth
Don't mind their chastity tonight
They're telling you lies...

Your Hands on My Skin

Only you know my perverted dreams
You know what I feel
You know what I really want
You are the only one
I could prefer to touch you now
But I only want to know
Only one thing at this point

Please tell me
Why I belong to you
When I cry
When I cry
For your hands on my skin

Save the only thing you can
Tell me what it is
Don't try to hide the perfect mess
Of your strange behaviour

Please tell me...

Slum Child

Your painful eyes
Tell the story of your life
About everything you need
About something you forget

The silence never heard
The pleasure never felt
And the tears they're falling down
And the fear it comes again

You're behind the times
You believe in God alone
I know his little ways
Don't listen to the voice
Let him alone

And the slum child looks around
Tries to escape and goes...
And the slum child looks around
Tries to escape and goes
To the place he needs
And don't forget the words I said to you

And you tears are falling down
Tries to escape
and the fear it comes again
Tries to escape and goes
To the place he needs
and don't ever forget the words I said to you
I said to you

And your tears are falling down
Tries to escape and goes...
And the fear it comes again
Tries to escape and goes...

Perfect Mind

Now that the lights are out
I am in bed
and cannot sleep
I think about
the time we live in
The feeling is so deep in me
It burns in my mind
It burns in my mind

And when I see
what is going on there
I hide myself
I cannot understand
This hate in dreamland

Their faces look the same
And we are all to blame
But we're too stupid to understand it
What a shame

And when I see...

Time Stands Still (Tonight)

You lie by my side
I touch your skin
Love at first sight
The time stands still
I give you a kiss
Don't let me go
The last four days
I missed you so

You see tears in my eyes
Should I cry or should I smile
You belong to me
Time stands still
Tonight

With all my heart
I stare at you
You smile at me sweetly
I come back to you
Such is life
It's strange to say
The time flies by
What can I do

You see tears in my eyes...

The Way You Treat Me

I'm alone
I try to understand why you go
Please take me in your arms tonight
To hear your breath
And hold me tight

And I go
To the place I should ignore
Believe me
Please
And come once more
To touch your breast
In the dark night

My latent dreams
I wish you were here
I feel the heat
In my hands again

The time had come
The game began
I payed for love
And we had fun
The night was long
Her face so bright
Her voice so strong
She holds me tight

You say
You'll never leave me
You say
You'll always need me
And the way you treat me
Is acceptable

To Be With You

To be with you
To be with you again
Don't show your tears
We know this is the end
When I was young
I looked into your eyes
When I was young
I saw that you were mine

To be with you
To be my girl again
The time has come
No future in my hands
When I want love
You see it in my eyes
When you want more
I can see it in your smile

What I'm waiting for
Is to be with you
To be with you again
What I'm waiting for
Is to be with you
Again

Falling

Since the day I met you
Since my prayers reached you
I know that you're the only one

And I'll never curse you
All the lows I've been through
Make me sure that I have won

When I look into your eyes
I can always see them smile
When I listen to your words
And I feel they do not hurt
I always want to be the one
To talk to you and have fun

Falling
Falling
Falling
In love with you

Then you take my heart
Lead me to your land
Let me feel your charm
Hold me in your arms
Well I can't escape
And I feel no hate
I suppose I do
Things you want me to

Time is running fast
Leaves me in the past
Poison in my veins
Makes me squirm with pain
Can't you save me now
Though I don't know how
Can't you make me feel
All my wounds you heal

Falling...

When I look into your eyes

The Day Before Yesterday

Try to Forget

You

You return in the night

Don't have a person to hold you

And you think about the past time

When you were

When you were still loved

You go to bed alone

Don't have a person to warm you

And you think about your lost love

Then you try to forget

Try to forget, Try to forget

Try to forget

You should try to forget

But you can't forget

You

You don't show your tears but I do

And you hope that someone knows

That you are alone

And takes you

And takes you in his arms

Your secrets are your thoughts

Write them down and start to cry

Write them down and start to scream

Because you know you are alone

Try to forget

Try to forget...
