# I Regret

Sometimes I'm simple minded  
Then I can't read your look  
All my thoughts are binded  
I'm like an opened book  
In which you read the story  
Of a bleeding soul I am so sorry  
Each time I lose control

I should suppress my rage  
I need you beside me  
Don't you leave the stage  
I need you to guide me  
I know you'll be my saviour  
If I repeat my fault  
You put me on my best behaviour  
You hear my call

Please hold out  
I regret  
All the nasty words I said  
I can feel you getting colder  
Please don't doubt  
That I regret  
All the days I left you sad  
Can't you see me getting older

I know I hurt your feelings  
But you had the strength  
To start my healing  
You went all lengths  
The days of crying  
Have reached the end  
'Cause now I'm trying  
to understand

Please hold out...

# Sweet Life

As we were young  
We believed in wonder  
The shadows of our unfeigned souls  
We were so much stronger

A sweet life, Unrestrained and wild...  
A sweet life... Glad to be a child  
A sweet life - We had no price to pay  
A sweet life... day by day...

As we were young  
We ran through the fields  
We let things take their course  
Had nothing to conceal

As we were young  
We could move mountains  
Our childlike heart and soul  
Were our strength's fountain

A sweet life, Unrestrained and wild...  
A sweet life... Glad to be a child  
A sweet life - We had no price to pay  
A sweet life... day by day...

A sweet life...

## Like the Sun

I would die for you  
You are my soul support  
I don't lie to you  
I will take all things you taught  
I get high on you  
You're the most befooling drug  
And I sigh for you  
I would never touch your luck

You don't flee  
Keep me in view  
You see me  
Safely through  
When the cold  
Hurts my soul  
You're like the sun

Want to fly with you  
To a place that we don't know  
I will cry for you  
When the time has come to go

You don't flee...

# Harvester

I cannot trust another vow

Another lie

I won't accept a new deceit

Before my eyes

You poke the flame

Of distrust in me

No matter what you say

You'll pay

You'll taste the pain

I know

You will harvest what you sow

I don't pretend to be a saint

I am alive

Nowhere to go

No place I know

You can follow close behind

You'll taste the pain...

## Today's Life

Wrapped in mystery  
A witless waste No sign of dignity  
A misty haze  
Blood-red history  
A deadly fate  
Perverse philosophy  
Justifying hate

Life of agony  
My mind insane  
Nowhere security  
And nowhere shame  
A yearn for harmony  
No silly game  
Spirituality  
Penetrate my brain

Does it help us to pray?  
I never felt that way  
Does life make sense today?  
I never felt that way

Does it help us to pray..?

# Scars

I know I came too late  
To save your heart  
I couldn't change your fate  
Now we're torn apart  
We were just boys  
When you had to go  
Each day I miss your voice  
And I'm feeling low

Heal the scars in my soul  
Now the time is right  
Heal the scars in my soul  
Wipe out the shame inside

And now it's much too late  
To save your heart  
I suffer from our fate  
We're torn apart

Heal the scars in my soul...

# Keep Your Dreams Alive

You are searching  
For a place to hide  
You will find it  
In a dream of pure delight  
You feel safety  
No fear inside your mind  
In your dreamland  
You leave all pain behind

Keep dreaming  
Keep your dreams alive  
Don't stop dreaming  
'Cause it beautifies your life...

You are waiting  
For the rain to fall  
Fell the raindrops  
After tearing down the wall  
You leave sadness  
And then you come to bear  
Your private paradise  
Your dreams will take you there  
  
Keep dreaming...

# Wages of Sin

# Bleed Me White

I'm afraid of you  
When I see you glare  
I will go down on my knees  
I'd do anything for you  
Want to taste all sins  
I lick off your feet  
I can't get enough  
I can never stop the lust

I keep still now you can bleed me white  
If you stay you see my second side  
I keep still now you can bleed me white  
You'll discover an undying light

I play the fool for you  
I lay down my pride  
I will go down on my knees  
I'd do anything for you  
You can seal my fate  
I give my heart to you  
I can't get enough  
I can never stop the lust

I keep still now you can bleed me white  
If you stay you see my second side  
I keep still now you can bleed me white  
You'll discover an undying light

## Take Me to the Time...

You can pray for me  
But you cannot save my soul  
Dig my grave but see  
That I still can hear you moan  
Think of my embrace  
When you lose all hope and faith

You reach out for me  
But you cannot grasp a dream  
You hold on to me  
Your illusion makes me real  
Think of my embrace  
In your drug's delusive haze

Take me to the time  
Let it start again  
Take me to the time  
When it all began  
We can fly so high  
You'll never want to say good-bye

Just remember me  
That's the least I do implore  
Don't you grieve for me  
Never lock your tender door  
Think of my embrace  
Don't ever trust heaven's grace

Take me to the time  
Let it start again  
Take me to the time  
When it all began  
We can fly so high  
You'll never want to say good-bye

# Daydreamin'

The wind has called my name  
You won't find me down again  
Can you hear the same?  
Spread your wings and fly away

With you by my side  
No more to say  
With no place to hide  
We run from today  
With you by my side  
I won't be afraid  
Inscrutable night  
We seize the day

My soul they'll never tame  
Higher spheres I reached again  
Do you feel the same?  
Pack your bag and dream away

With you by my side  
No more to say  
With no place to hide  
We run from today  
With you by my side  
I won't be afraid  
Inscrutable night  
We seize the day
