# I'm Not Enough

I can't breathe in this atmosphere  
No air, no life in here  
An all-enveloping silence  
Multiplied my fear  
Killed myself a million times  
To feel that I'm alive  
Reconstruct myself every day,  
anyway

I'm not enough  
I'm never enough  
I have left no stone unturned  
Rest in me  
Breathe life into me  
I'm dying over and over again  
Rock me to sleep  
And bury me deep  
Deep inside your hollow wounds  
Rest in me  
Breathe life into me  
I'm dying over and over again

I'm living on borrowed time  
I am past my prime  
Quite determined to exhaust myself  
And live in someone else  
Everybody needs a little affection  
Once in a while  
Reincarnation of a broken soul  
All alone

I'm not enough  
I'm never enough  
I have left no stone unturned  
Rest in me  
Breathe life into me  
I'm dying over and over again  
Rock me to sleep  
And bury me deep  
Deep inside your hollow wounds  
Rest in me  
Breathe life into me  
I'm dying over and over again

I'm dying over and over...

# I'm Not Dreaming of You

There's a feeling within  
Getting under my skin  
Breakdown  
My plane just hit the ground  
Got control over me  
Got a rise out of me  
Downfall  
Full tilt against the wall

Of all the things I would ever do  
I only regret the fact  
That I ever put my trust in you

I can't go on denying  
A part of me is dying  
Whenever I'm in you  
Is it me is it you  
I can't go on pretending  
This is how we're ending  
I stopped dreaming of you  
And the things we would do

Like a thorn in the side  
A distortion of life  
No way, can't take another day  
Every storm you create  
Every feeling I fake  
Wake up my truth became a slut  
How hard you try no matter what you do  
In the end my dear  
Your love won't never be enough for two

I can't go on denying  
A part of me is dying  
Whenever I'm in you  
Is it me?  
Is it you?  
I can't go on pretending  
This is how we're ending  
I stopped dreaming of you  
And the things we would do

I can't go on denying...

I can't go on pretending  
This is how we're ending  
I stopped dreaming of you  
And the things we would do

This is how we're ending  
I'm not dreaming of you

This is how we're ending  
I'm not dreaming of you  
I'm not dreaming of you

# Unputdownable

Down there by the river  
Underneath a tree  
I wish you were here with me  
Deep down in the water  
Secluded from the world  
My heart unfurled

I'm filled with love  
From far above  
I'm unputdownable  
I found a light  
In the dead of night  
Yeah I'm feeling fine  
The river flows  
The feeling grows  
I'm unputdownable  
Lead me on and on  
Lead me on and on

Though it takes forever  
I'm waiting patiently  
Until you are here with me  
Arrogance and anger  
Curve the way to light  
And lead into the night

## Turn Me On

Every day just feels the same  
Nothing ever happens here  
I lose myself in reverie  
Every once in a while  
Enchain me  
with your gentle kiss  
Artificial and clean  
I lose my tenuous grip on life  
So it seems

Everything I can remember  
Need you here with me  
Your calming words  
are like a melody

Turn me on  
Bring my blood to run  
Turn me on  
Could you be the one?

Everything I can remember  
Need you here with me  
Your beauty timeless  
Like a tragedy

## 6 Feet Underground

Lifeless yet alive and eager to live  
I laugh bravely, I dare  
May your day be  
Suffused with light  
Come pick my bone  
Bathe me in your night

Wherever I turn  
My road seems to go nowhere  
6 feet underground  
Fated to fail  
And damaged beyond repair  
6 feet underground

Life, mere existence  
Go, fill my day  
I'm drowning, tired  
Say you're my own one  
Say you'll always be  
When I came home  
The wind had blown you away

# Aimee

The sun was cold  
The day before you came  
To be so bold  
As to implore a place in your heart  
You make me feel  
Like I was special  
It feels unreal  
My life was yet a doubtful blessing

Aimee  
Take all your love out on me  
Theres nothing to it  
Take all your love out on me

You make me feel  
Like I am special  
You make me real  
I'd die tonight to lie by your side

# Right on Time

I'm right on time  
My light will guide you  
I'm right on time  
My love will find you

# Take Me Over

Take my hand  
Forever yours  
Your wish is my command  
Heart of gold  
Her beauty almost  
painful to behold  
My world's on fire  
Commit me to the flames  
Don't ever leave me  
The flames get higher  
We'll kiss the pain away  
My one desire

Take me over  
Over and over

My world's on fire  
Commit me to the flames  
Don't ever leave me  
The flames get higher  
You suck the pain away  
My one desire

## You Are the One

The very moment I saw you  
All my yearning took shape  
You're all I ever wanted  
Like a dream incarnate  
We'll be perfect forever  
Me and my good time girl  
we we're too ordinary  
For a perfect world

I am barely hanging on  
Don't let go  
You are the one  
Some are born to pure delight  
I was born to roam the night

While you're killing me gently  
Our lifelines entwine  
We're the stars in our own world  
Unaffected by time

# Beside You

(Drei, vier)

I do, I try

I live, I die

I know I'm not alone

I'm wide awake

Got what it takes

I give as good as I get

In a distance

Faraway

Where my spirit lives

And my lone heart grieves

I feel you

I take the best

And stab the rest

I got to get under way

Live for today

Fall by the way

I go to meet my fate

In a distance

Faraway

Where my spirit lives

And my lone heart grieves

Everything else pales into

Insignificance, non-existence

Beside you

I feel about there's no way out

Love me to death

# Klangmonaut

# Take Me to Heaven

18 a.m. I'm cruising through the dark  
Stained and on the road  
for far too long  
I'm going down the only road  
I've ever known  
And for the first time  
I'm afraid to go alone

I love you that's for sure  
To love you is the hardest thing of all  
I love you that's for sure  
To hold you is impossible to do

Take me to heaven  
Take me to heaven, all the way  
Take me to heaven  
Take me to heaven and back again

Five to twelve  
I'm rising to the stars  
That's the only place where I belong  
I'm feeling pain and pleasure  
I have never known  
I'm coming up I'm coming down  
I'm coming home
