## Between the Shadow and Me

I cannot see your smile  
In any crowd I look  
I cannot call your name  
From here

I fall for your deceives  
As if you were my friend  
As if your shapeless words  
Were mine

I know you lie to me  
Although you speak the truth  
The difference lies in  
Your hands

I cannot see your smile  
You won't distort my view  
Companion, now I have  
To walk the way behind you

# Contradictive

As he stood and tried in vain to find justification

- this cannot bloom in me for longer, with old desires getting stronger -  
Another man was passing by and for a glimpse it strangely seemed  
As if they were known to one another in spite of being contradictive

A cloud-like shimmering appearance, he raised his voice, began to speak

"Your existence drowns in failure, into a suffering decay"

Pale, accumulating letters, stuttering: "Relief?"

"Last time standing kid, and better take advantage of..."

Do not shiver in your sanity, at least you've got emotions

Do not shiver in insanity, at least you've got emotions, devotions

"Are you a wise man or a prophet, that you may judge and turn the key?"

"I never caused your intuition, thus it was bound to your deceit

The only reason for existence of the question why

Learn to cope with rare conditions, you didn't even know before"

Do not shiver in your sanity, at least you've got emotions

Do not shiver in insanity, at least you've got emotions, devotions

"I'll rejoin my old intentions, sinner you could call me not",

"Possible while sleeping-slumber, reaching out for dreams that - You've lost"

Glued to life he tried in vain, reduced - the essence of his body -

Entering slowly, smooth, declare a magnificent new sphere

# I Wait for You

I like your time I like your thinking  
and drowning in your weird obsessions  
I kiss your feet as you are walking by  
and feel your potion on my lips

the sundance and your eyes  
invincibly combined  
still wondering what to pray for  
tell me why I die to please you

I wait for you I wait for you now

Shouldn't it be sad that one's alive  
unjust sentence to endure  
reminding all the tears we drank together  
you cannot leave me all alone

hesitation and my mind  
invincibly combined  
still wondering what to pray for  
tell me why I die to please you

I wait for you I wait for you now  
Your hazy breath -intoxicating-  
illumination starts to fade  
Blinded eyes cannot see a companion  
a divided soul I offer to repay

I won't rely on someone's patience  
another vision of delight  
my childhood fears should lie in graves now  
innocence I must deny

I wait for you I wait for you now

## Leaving Hollywood

Emptiness dead-smooth and choking the air  
I'm leaving Hollywood if you don't care  
lost in the twilight of self-consciousness  
trying to picture the smile you might wear

Where are the plastic doves ready to kill  
the inspiration I try to fulfill  
Cry for me sister on Valentine's day  
you'll find me lying on Hollywood Hills

Spoke to an acolyte coming my way  
the weather is fine what a wonderful day  
his bloody robe suits him tolerably well  
but he can never induce me to stay

Your double-dealing voice hits me so low  
but I'm your henchman so I have to go  
nobody sees that I'm only your frame  
when I left Hollywood they all will know

Someday you gonna crucify me in a black-painted room  
you gonna call all your opponents who gonna spit me in the face hit me in the face  
and I will laugh about everyone  
I'd cover my mug if I could

Emptiness dead-smooth and choking the air  
I'm leaving Hollywood if you don't care  
lost in the twilight of self-consciousness  
trying to picture the smile you might wear  
trying to picture the smile you might wear  
trying to picture the smile you might wear

## Said but True

And if you offer everything you have  
I still want more  
Face and body lacking relevance  
I still get bored

Cleft in frozen lakes I'm sailing on  
Ancient scar  
Try to reach me way too short your chains  
Bound as you are

What an honest kind of lie  
To the final answer I dare to ask you for

You took me this far  
You made me need to change

Could you ever think I'd give  
Attention to the true effect of your words  
Of your disease

Uninfected I remain  
Insensible immune and deaf  
Untouchable like clouds

You took me this far  
You made me need to change  
You took me this far  
I never will return

## Kain's Advice

It's the feeling I won't anchor here  
No rest impatient flood  
A coward's flight has turned to strolling walk  
Or even pure attack

Still death is our rescue  
But not this one - never this one  
As apparing this end may be  
Its caused grief is real heavenly and cruel

These smile-evoking silent lips  
Will never speak a word again

Forgive me

Could this drama end, dazing drama end finally  
All your miracles shining, miracles illusiory

I couldn't listen to, even hear your promised lullaby  
Angel's wings are gone, angel's wings are gone  
I'll never fly...

Still kept in motion, still operating  
Scuff at the puppet  
Far too late I severed like Kain from guilt  
Flying from pale dreams

I was wrong

It's the feeling I won't anchor here  
Follow now and drown like a stone  
In a mental world cursed humanity  
Reach for water like for gold

Too late now

Father never took, father never took advice from it  
Brother started to, brother started to deny the deeds  
I couldn't listen to, even hear your promised lullaby  
Angel's wings are gone, angel's wings are gone, I'll never fly  
I'll never fly

## Belle?

You...  
Come on, dance with me, to the end of the world... yeah  
You...  
Come on, dance with me, to the end of the world... yeah

Still remember your smiling face, in the big crowd  
Laughing, shouting and waving your hands...  
Staring at me, instead of turning away to the show  
Blind in one eye, I stood still, at the outside...  
Yearning for a solution, while the dance is returning...  
Faster, and faster towards me

The words in your letters, I couldn't decipher...  
Never allowed to fall for the sun...  
For, the rain is intended for me...

Come on, dance with me, to the end of the world... Yeah  
You...  
Come on, dance with me, to the end of the world... Yeah

Absorbed in the lips, of a graceful dancing princess  
Too deeply affected too bright the sun...  
But my shadows have always loved you  
Empty stage, now, peace of mind...  
Remembrance of the times instead...  
Save another dance, only for me...  
Only for me...

You...  
Come on, dance with me, to the end of the world... Yeah  
You...  
Come on, dance with me, to the end of the world... Yeah

Unvoice my swaying promises, unproved the impossible...  
I cannot fall for the sun, the rain is intended for me...  
Come on, dance with me to the end of the world...

## Masquerades and Faces?

Will you bear my everlasting sorrow?  
Will you suppress my indifference?  
Holy nail in my coffin  
Holy queen of my illusions

Feeling pale like the moon above me  
Here I am nude and immortal  
Leave a tear on my pillow  
My final resting place, my comfort

Talk to me, lie to me  
Comfort me, lie to me

Still I'm dying to believe  
That I have lost the air to breathe  
Beloved failure has left  
A thousand scars forevermore

Behind these masquerades and faces  
Faithless long for forgiveness  
And is the truth  
Another fiction of you?

Can you sing, can you raise the dead?  
Still I live for a hazy silhouette  
Fill my eyes with your splendor  
Like glassy jewels falling down on you

Your divinity tastes like perjury  
And deception means the end  
Can you feel, can you feel the burden  
A sacred heart is longing for?

Will you bear my everlasting sorrow?  
Will you suppress my indifference?  
Holy nail in my coffin  
Holy queen of my illusions

## Another Queen

Systems slaved to secrets  
Wisdom unsuspecting quest  
Silence holy true old friend of mine  
Timid tries to race me down

Another episode of wild complains  
Closes chapters of childish struggle inside  
Pale naked as now thoughts cannot deny  
The purpose of neglecting lies

Withered fairy all my dedication  
All my love for you

Believe in the signs I draw on your skin  
Secrets now told as final advice

Believe in the signs I draw on your skin  
Another queen that will never rise

## Bring Me Flowers

Bring me flowers in the night  
Lay your cheek down by my side  
Leave my lovers full of need  
And my brothers full of greed

Hush now, slowly come inside  
Feel your neck glow, it's alright  
See me sunk here in too deep  
Bring me flowers when I sleep

Caressing hands, warm like the sun  
I feel your breath inside my lungs  
Smile peacefully and take  
My hands on your face, I won't awake

Are you here for a final goodbye?  
Did your soul fall or fly?

Love disguising fluid within  
Your warm teardrops on my skin  
All my lovers disappeared  
And the others were never here

I drank the ashes of desire  
Brought about and lost it all  
Gloomy chamber fading light  
Bring me flowers in the night

All your mercy is not melting with mine  
Did your soul fall or fly?

# Pale

Speechless and fearful  
Suffocated by air  
Escaped from your grasping  
I couldn't stay there

One single day longer  
Now that I had  
Exposed what your facades  
And walls didn't say

Talking by glances  
People stay dumb  
Hostile words getting  
Even meaner like this

Attracted by wisdom  
And seductive psalms  
I followed your footsteps  
Wherever I was

Your lap offered comfort  
Deliverance your touch  
Divine and indulgent  
You hurt me so much

I woke up but it was  
Already too late  
I said if I shall die  
Please never here

Leaving I may be  
While knowing for sure  
Soon I will be with you...  
...again

## Don't Be There

Liquified in my lucid intervals  
I gulp it down  
Glutinous milk to wash away  
The solitary taste you left on my tongue  
Just enough to keep me spiraling  
Until you come home  
Until you come home

Don't talk to me like this  
It hurts less when you're estranged  
Don't talk to me like this  
The truth's not yet arranged

I'm on top of the world  
I'm cracked beyond repair  
Oh yeah

Don't be there  
Don't be there tomorrow  
I will see through you  
Right through you  
Like through a ghost  
Wishing I had never met you

Apathy my only strength  
Given to me like a name  
Can you really change a fact  
I'll ride the wave I won't look back  
Until you come home  
Until you come home

In my circle - fading in and fading out  
In my circle - the flawless tyranny the air as thick as honey  
I'm caught and trapped  
I'm caught and trapped  
Rise up  
Rise up  
Lay down  
Lay down with me  
Caught and trapped  
Caught and trapped

Don't be there  
Don't be there tomorrow  
I will see through you  
Right through you  
Like through a ghost  
Wishing I had never met you

## You and Ice (Fragile version)

Iceblue shadow  
Gliding through the air like wind  
Will you follow  
Me when I can't find the way

Am I wrong now  
To hold onto your promised sun  
Am I wrong now  
To think ingrained beliefs can stay

How can I thaw  
The frozen lakes between you and me  
Unless you drown  
Unless you drown the way I do

Bound for nowhere  
Never move until I'm gone  
My reflection  
Unfold it safely in your arms

Molten diamonds  
Crystallized your tears like salt  
Still you follow  
To live in dreams beyond recall

How can I thaw  
The frozen lakes between you and me  
Unless you drown  
Unless you drown the way I do

Do you feel alive  
Buried deep in ice  
You can call my name  
With your mellow voice  
But why?

## Crop of Illusions

The yuppie is leaned against  
the bar with the highest repute  
and everyone is beckoning  
him over to the grinning terrains

He tangoes to major chords  
yelling intelligent quotes  
about shocking french movies  
and holes in the m-theory

They will hunt you down  
they will hunt you down  
until you're put on the right track again  
until you match up to your talents again

Their deeds are efficient  
their voices are dulcet  
they know about water  
they know about wine  
about who's marrying who  
and which kid's in the corner  
and who always grabs the big share

So go with the yuppies stay invulnerable  
go with the yuppies and stay in their company  
always clocking in - never clocking out

They will hunt you down  
they will hunt you down

I'm the crop of illusions  
I'm stalking the streets at night  
I'll make you let go of all your chances  
if you cross my way
