# Velocity

Endless rows of boys and girls  
Spreading the news it's better to let go  
I'm involved in other lines  
I guarantee there will be no excuse  
Loyalty to lunacy  
Turn into velocity and run  
Romeo against the wall  
Grant him no adrenaline at all  
Pull the trigger Julia  
Grandiose there's nothing more  
To wreck

## Velocity

How can you expect me to come sober  
When there are so many lovers in the parks  
How can you expect me to come sober  
With all the lifeless voices in my head

This is just a private war  
I am stuck here nowhere else to go  
Pavloved insecurity  
Look at me this isn't me out there  
Gliding flight identities  
You must feel ridiculous right now  
I am tired of being awake  
Close the case there's nothing more to say

How can you expect me to come sober  
When there are so many lovers in the parks  
How can you expect me to come sober  
With all the lifeless voices in my head

## Velocity

## Last Minute

Nothing but sound  
Nothing but slumber  
Nothing but frenzy

Nothing but rush  
Nothing but fever  
Nothing but seconds

Choke on the fire - free for all times

Nothing but pure  
Nothing but fragile  
Nothing but human

Nothing but you  
Nothing but grateful  
Nothing but shameless

Choke on the fire - free for all times

## Kiss of Knowledge

Tell me - where I may belong  
Yell at me - tell me what went wrong  
Consume me - swallow me whole  
Tell me - that it didn't hurt

It's not the truth until we start believing

Hate me - make me feel adored  
Mistake me - stab my every word  
Confuse me - I'm afraid to think  
Believe me - until there's nothing left

It's not the truth until we start believing

Promise me - maybe tomorrow

## Howland Road

Yes to brides and yes to grooms  
We all deserve champagne and caviar  
Freeze your motions realizing  
Trembling here does not affect you  
Run for cover run for shelter  
Their demands are way too sober  
Trembling here does not affect you  
Zittern hier betrifft dich nicht  
Can you see them waiting for you  
Mind-programming their seductions  
Like the tumors of your loved ones  
All makes sense and emptiness remains

I'm drifting in a storm  
Behind my little window  
Can you see me?  
Can you see me?  
I'm creeping under words  
And riddles and aggressions  
Can you hear me?  
Can you hear me?

Try your luck on unknown streets  
So trembling here does not affect you  
Have another drink or two  
So very nice so very nice  
Children killed by smoking drivers  
Cannot hug their orphan pandas  
All makes sense it all makes sense  
For trembling here does not affect you  
I've been too sorry been too friendly  
Been too weak or been too normal  
This was not expected from you  
All makes sense and emptiness remains

I'm drifting in a storm  
Behind my little window  
Can you see me?  
Can you see me?  
I'm creeping under words  
And riddles and aggressions  
Can you hear me?  
Can you hear me?

So let your children entertain you  
Let your children entertain you

# Staring

You're a great comedian  
You're a sweet chameleon  
Like a tree in winter  
Just like a tree in winter

Oh don't stop staring  
Don't stop staring

Are you prepared to fall forever  
We're children with the souls of birds  
And our thoughts are sunlight  
And our thoughts are sunlight

Oh don't stop staring  
Don't stop staring

If anyone asks no we're here  
Let's pretend that we are on our way  
Our Roman theatres glow with sunlight  
We could be there if you waited  
For a little while

# All That Matters

I've got a question  
What's the price for some intimacy  
I will pay  
Design your smiles and  
Please remember that the other ones  
Killed for less  
Who cares for freedom?  
Mute your lines for they're not wanted here  
Anymore

It doesn't matter  
You stay the fusion of all I cried for  
Of all I wanted  
It doesn't matter  
You stay the fusion of all I'm leaving  
Of all I disregard

A secret message  
Submerged in sweat in sighs and tenderly  
Overheard  
Come blow the ashes  
In my direction I will glamorize  
You for that

It doesn't matter  
You stay the fusion  
Of all I cried for  
Of all I wanted  
It doesn't matter  
You stay the fusion of all I'm leaving  
Of all I disregard

You must have noticed

# Brainwashed

Must I remind you of your choice  
And the quality of smugness  
Is our joy a friend of fear  
Do we need a password here  
Double check my storylines  
There might be a sign of weakness  
Only fools repeat themselves  
Only fools repeat themselves

All your senses  
Jokes and dances  
Kill them all for you  
Kill them all for you

Our rebels say  
It's not enough  
Our rebels blow themselves up  
As winter comes  
People will die  
The new reality sinks in  
Emerge you giants  
Restore our green minds  
Our temple of dreams yes it's true  
Change your life  
Rock for one last time  
And all is just a click away

## Home to Millions

Your wait-forever attitude  
Makes you a member of the club  
Obscene, naked as a worm  
Dressed like a president

Are you alive?  
Where is your limit?  
You sleep in her palace all the time  
Where is your limit?  
And never wake up

Your voice, too mad to be ignored  
Avoids their greedy smiles in bars  
Detentions cloaked in secrecy  
Good sense equal success

Are you alive?  
Where is your limit?  
You sleep in her palace all the time  
Where is your limit?  
And never wake up

Home!

She won't be waiting in the rain  
She'll find her own way home  
Oh last remains of reality  
It's not what you want it to be

## Forgotten

In diesen Tagen rasender Betrunkenheit und verbrecherischer Melancholie  
sind einige Verse entstanden

Zwischen Trübsinn und Trunkenheit verloren,  
fehlt mir Kraft und Lust, meine Lage zu verändern,  
die sich täglich unheilvoller gestaltet

Bleibt nur mehr der Wunsch,  
ein Gewitter möchte hereinbrechen und mich reinigen oder... zerstören

O Gott, durch welche Schuld und Finsterniß müssen wir doch gehn  
Möchten wir am Ende nicht unterliegen

Let the world collapse  
Pray it will be done in beauty  
Let the world collapse  
Pray it will be done in beauty  
This one is real  
Growing sicker in perfection  
Just as you are  
Keep on cheering for the good ones

Heroes are made not born  
For the world you stay forgotten

This one is real  
Growing sicker in perfection  
Just as you are  
Keep on cheering for the good ones

Ich habe in der letzten Zeit ein Meer von Wein verschlungen,  
Schnaps, Bier. Nüchtern

## A Few Days Off

Tell the monsters  
I gave up looking for reasons long ago  
Come and get me with guillotines  
I will hope for new disasters  
Sick of sharing your fake orgasms  
While you seem pretty tired

I'm your alien  
Come on join me  
Inhale the difference  
Carefully  
You're my savior  
Come on save me  
Inhale the difference  
Carefully

Tell the monsters  
I'm disappearing to sense their dulling madness  
No compassion  
You will have to go on, go on without

I'm your alien  
Come on join me  
Inhale the difference  
carefully  
You're my savior  
Come on save me  
Inhale the difference  
Carefully

Do you want to live like a ghost?  
Do you want to live like a ghost...  
For the rest of your life?

## Pain Management (Quick Relief)

How long have you been guarded  
In frameworks to present you?  
I need you as a target  
My hollow arms defend you  
My thoughts were never sleeping  
You've got to triple-heal me  
Immune against the others

Moving slow to feel me  
You punish me with absence  
All images inverted  
You could be here to hear me  
While every word is deserted  
How long have you been guarded  
In frameworks to present you?  
I need you as a target  
My hollow arms defend you  
You could have taught me how to fight  
To be upfront and say the truth  
To overcome a lonely youth  
To integrate and not to hide  
To cogitate and redefine  
The heroes I had trusted once  
And idolized like setting suns  
Surrendering to their fading shine

Spotlight on my swaying  
Let me freeze let me burn  
Quiet I'll be quiet  
Howl me down howl me down

# The Convenience of Being Absent

I'm sorry that we didn't know how sick you were  
Your world in brilliance did you cut yourself from there  
To change your wild perspectives somewhere along the road  
To dream of oceans till your head wants to explode

What is your substance?  
What are you made of?

And all your grimaces like curtains on the wall  
To guard against our eyes to nullify it all  
Your deepest wish directing dramas in your head  
"Leave your person and be someone else instead"

What is your substance?  
What are you made of?

Have I not deserved to grasp we're perfect and complete  
Have I built these walls around us forever you and me  
Forever you and me  
Forever you and me

And all intelligence has to be left behind  
To spend an evening without you on my mind  
While you are better off with any of these pills  
We keep on juggling animosities and thrills

We thought you were funny

What is your substance?  
What are you made of?  
What is normal?  
Am I normal?

Have I not deserved to grasp we're perfect and complete  
Have I built these walls around us forever you and me  
Forever you and me  
Forever you and me

Can you pretend to be there and love to be alive  
Can you pretend to be there and love to be alive  
Love to be alive  
Love to be alive
