# Repair

The world today is pulling me apart  
I haven't seen any faces that  
Respond my soul  
this urgent need for desire

The things we search and places where we go  
Without a thought  
how will we ever know  
A quest that surely leads us into disaster

Looking for love without pain  
Chasing your thoughts through my brain  
I cannot feel desire  
I can't repair the wire that connected our worlds

Running away from the hurt  
Sending a signal to your world  
Awaiting confirmation  
I am standing patiently in the dark

Your heart in vain is beating in your chest  
Is it too late to answer my request?  
A life that is  
intended to lead one another

Before you leave and vanish in the dark  
I'm sending out an everlasting spark  
A light that will guide you into my haven

# Moscow Paris

Big scar  
Where are you from  
Next time  
I can't go wrong  
When day breaks  
Resting where the witches lied

Time line  
Out of sight  
My mind  
Mystified  
While you mind  
Living in the ordinary world

Rush now  
Don't be late tonight  
The lights will shine upon you  
Be tycoons of the club

Dance Moscow  
Let your body work  
Dance Paris  
Your mind will go berserk  
United for a lifetime

At night  
You're haunted by depressions  
That you will never find  
A greater peace of mind  
So you're longing for the day  
You conceive true  
Love and passion  
Devotion of a kind  
A greater peace of mind

This Lazarus heart  
Within my chest  
Won't stop beating  
Salvation is best  
When served chilled  
To stop the bleeding

# Collector

Her beauty confuses me  
I couldn't follow all her moods sometimes  
She is my secret guest

I used to have daydreams about her  
But I can't ever get to know her (in the ordinary way)  
Money lets you do whatever you want

Collector  
Life rejector  
Anti-life, anti-art, anti-everything  
Collector  
the lonely wolf  
Why do you take all life out of life?

Time in prison is endless time

There was a silence I spoke as plain as words  
Away from night from what I want to be  
Awoke and found myself alone in this crypt  
Your love is desperately

Have you ever had before a living beauty  
You've ended - You don't even share it  
All alone you are and all alone you die  
I won't give in - your love is just a lie

You've pinned me in this little room  
I shan't struggle - I'll let you do what you like / is it day or night  
Trapped in this crypt  
Alive in the way that death is alive

Having her was enough - nothing needed doing  
I'm waiting for you to do something  
All these people searching and we knowing the answer  
Why do you kill all the beauty?  
And I knew more and more I couldn't let her go  
And noblesse oblige all over again

Choose the common life  
Choose to be alive

You're so without mercy

## Opposite Sides

Hopeless dreamers  
Restless believers  
(Watch me) share my kisses on the dance floor  
Needless affections  
Priceless connections  
It's about time you make me feel

No more transition  
One last seduction  
(Watch me) crawling like a snake begging for more  
Expecting little  
Acting equivalent  
All for nothing in the end

Now it's time to walk the line  
I will certainly not cry  
When the sun comes up  
We will be on opposite sides

When the fire begins to set  
Trembling emotions, regrets  
Doubts and neverending lines  
Expecting little  
Acting equivalent  
All for nothing in the end

# Life Is Porn

Lately

I've been running around

Without a notice

where I should turn, why I should learn

all those new ways of thinking

Lately

I stopped running around

Before the breakdown

Too much of them, Too little me

Restructure priority

Life is porn - Go fuck yourself

Life is storm - Go shift yourself

Life is torn - Go drown yourself

Life is scorn - Go laugh at yourself

Maybe

I was wrong and in doubt

Without a reason

Trusting myself, Asking myself

Is it worth to be fighting

Maybe

Someone else will come out

And take on my place

Life means to change, Life is so strange

## Fields of Grey

Seems like ages we were lost and found  
Until I realized  
It is so long ago

Still I search those places now and then  
But there's no quick relief  
For everlasting grief

Through the fears and battlegrounds  
All the time I searched the answer  
Standing in these fields of grey  
As the world is fading away

Bound to fail forever in despair  
What was truly ours  
Became indifferent

And for every second I believed  
We maintain the balance  
While I'm floating on

Around these walls of hate I held your hand  
And we looked alright  
And we turned the tide

Indestructible and in between  
Only for the world  
Only for you and me

# The Muse

My friend, where have you gone  
Only tears to dwell upon  
And they keep saying your life will show

My heart, your mind is wrong  
Only stars to carry on  
And they keep saying your nights will glow

The touch, the wolf within  
Only doubts to calm the storm  
And they keep saying the crack will grow

There she goes  
A metaphor in disguise - Her thoughts are never sleeping  
Fill me with your life - And leave me in your keeping  
The inspiration game - She plays without retrieving  
And in the finest hour - She takes without deceiving

My flesh, your hunting prey  
Only words to seal the wounds  
And they keep saying the blood will flow

The kiss, the demon mask  
Only fragments inside my brain  
And they keep saying to let you go

# Modern Talking

The distance in your lines  
Between the words of solitude  
My inside hurt  
You need to read between the lines

I try to live our lie  
Closest to extinction  
Without alert  
Everyday we try to pretend

The mysteries of life  
Will only come to certain people  
Who dare to look beyond  
The mysteries of life  
Will only come to certain people  
Who dare to breathe in - to breathe out

Now I can see  
And face reality  
Find truth, find peace  
My life's a query

It's time to see  
And face reality  
why you, why we  
Play solitary

You blinded me with light  
A beauty without meaning  
The fiction worked  
Until I opened up my eyes

Betraying only once  
But never is forgotten  
A scream unheard  
It will remain inside of me

# The Garden of Delight

She breeds tumors in her backyard at night  
Hides from daylight and from curious eyes  
Beware of what you're about to find  
Beware of secrets in your crooked mind

And when the water started falling  
And washed away her sins  
Eternal voices calling  
From a battlefield within

A place to hide your sorrow  
And find rescue at night  
I'll be sleeping in her garden  
In her garden of light

# Ghost

Braindead - a state of mind  
Mindless - defeated and blind  
Weakness - a second in time  
Restless - to deal with the things you left behind

Anger - a feeling besides  
Destruction - result to resign  
Counting - what's left to achieve  
Counting - on what you really want to believe

Erase the ghost from the past  
Make this moment count and last  
Look to the skies an endless galaxy of light is waiting

Maybe the road is way too long  
And noone home when you return  
Your memories will mend the doubts and help you to move on now

Your heart my source and stepping stone  
Your faith I lay my trust upon  
Conceive the future within seconds our time is fading

Erase the ghost from the past  
Make this moment count and last  
Look to the skies an endless galaxy of light is waiting

# Mystify

All veils and misty  
Streets of blue  
Almond looks  
That chill divine  
Some silken moment goes on forever  
And we're leaving broken hearts behind

Mystify, mystify me  
Mystify, mystify me

I need perfection some twisted selection  
That tangles me to keep me alive  
In all that exists  
Well, none has your beauty  
I see your face and I will survive

Mystify, mystify me  
Mystify, mystify me

Eternally wild with the power  
To make every moment come alive  
All those stars that shine upon you  
Will kiss you every night

All veils and misty  
Streets of blue  
Almond looks  
That chill divine  
Some silken moment goes on forever  
And we're leaving  
Yeah we're leaving broken hearts behind

## Parallel World

The treason of lovers  
A reason for others  
To run and hide away

The courage to distress  
A nightlife to assess  
Who was right anyway

Leave a light on  
We're living in a parallel world  
We're living in this parallel dream  
And I want to know if there's life on the other side  
So leave a light on  
I see you in your parallel world  
I feel you in my parallel dream  
And I want to know if there's life on the other side
