## Logic Friends

I can see you through the wall  
Frozen in a monologue  
All your dirty little secrets  
Almost every night

A thousand arctic eyes are weeping  
Only heard as echoes  
Numbing every other sound  
All the symphonies of night

All their hands are reaching out  
To draw the conscience off from my soul  
To lure my vicious sanity  
Into the running river

Oh you hearts so warm and true  
Let me sleep without fear  
A last chance to listen  
To the longest blackest night

Aaah stay my logic friend forever

As our city lost its name  
We have all been drunk and dazed  
Close to turn invisible  
So tireless so true

In the disappearing night  
In the brilliance of your gaze  
Let your star keep me on course  
Wipe me out I'm the mistake

Aaah stay my logic friend forever

All my logic friends come on my logic friends  
Come on my logic friends come on my logic friends  
All my logic freinds come on my logic friends  
Come on my logic friends come on my logic friends

The city has lost its name  
So tireless and true  
The city has lost its name  
So fare you well my friend  
There is nothing but ice all around  
Learn to be invisible  
The city has lost its name

## The Girls

To think is not the way  
To feel is not the way  
To choke is not the way  
To try is not the way

To run is not the way  
To sneak is not the way  
To faint is not the way  
To starve is not the way

Fuel me further

To speak is not the way  
To scream is not the way  
To lie is not the way  
To fuck is not the way

To trust is not the way  
To risk is not the way  
To love is not the way  
To hate is not the way

To burst is not the way  
To freeze is not the way  
To leave is not the way  
To dream is not the way

Fuel me further

Please don't go

## Dear Brother

I am your doubt  
Your constant sin  
The swollen shape  
Of your regrets

You make your way  
To where I am  
As you remain  
Inside the cold white room

Brother shoot me down  
Kill me from within  
Brother shoot me down  
Kill me once again

I am the void  
Carved in your face  
All eyes and ears  
Are bouncing off

Don't let a sound  
Seep through the wax  
You left a friend  
Inside the cold white room

Brother shoot me down  
Kill me from within  
Brother shoot me down  
Kill me once again

I'm the hurricane  
In your water glass  
Stir me  
Stir me

I am your first step  
Into no man's land  
Walk me  
Walk me

Brother shoot me down  
Kill me from within  
Brother shoot me down  
Kill me once again

## Helmet Down

Brother are you safe where you are  
Beyond the exit signs beneath the trap doors  
The youthful dream is always sent to sleep  
Behind a wall in a cold white room

Brother there is nothing left to fear  
No entwined opacity no regretting  
All that we've been all we could have been  
Remains unharmed in a cold white room

Helmet down we've lost the war  
It's not my fault I've been too far away

Brother are you safe where you are  
All the exit signs all the trap doors  
The youthful dream is always sent to sleep  
Behind a wall in a cold white room

Helmet down we've lost the war  
It's not my fault I've been too far away

## Friends We Used to Know

In emergency  
I fire my thoughts at you  
Responding or not maybe  
Reacting a lot you'll be

Turn around now  
She's killing with looks at ease  
Defending or not maybe  
Depending a lot I'll be

And as we get lost deliver our souls  
To each other we lose control  
And start to bother about friends  
We used to know

And as we get lost inside this dream  
With each other nobody sees  
Or seems to notice that we're losing  
What we're fighting for

While the moments pass  
I watch every move you make  
Betray us or not who cares  
Surrender the heart that tears

As I catch your breath  
You stand there and watch me bleed  
We'll blend into one maybe  
But never apart you'll see

Turn around now

## Someone Dies

Am I talking? Are you paying attention?  
Are these question to be asked  
When someone dies?

Am I describing a picture that's  
Slowly fading  
And are we paling along these  
Fields of grey?

The play goes on  
And my eyes will beam with gladness  
What can be done  
To fill the rigid rooms with movement?

Have you been wrong  
To just stop breathing without cause?  
When all is gone  
Can I choose to follow you?

What else can be done?  
You stare into the depth  
If there lies a ground if there was  
An eruption

If it's too late  
You cry yourself pale you shine  
What can be done?  
What else can be done?

The play goes on  
And my eyes will beam with gladness  
What can be done  
To fill the rigid rooms with movement?

Have you been wrong  
To just stop breathing without cause?  
When all is gone  
Can I choose to follow you?

What brought us here?  
Are we in need of help?  
Are we drunk enough to fit into the scheme?

Am I steady?  
Do I look consistent?  
Have we amassed enough insignificance?

The play goes on  
And my eyes will beam with gladness  
What can be done  
To fill the rigid rooms with movement?

Have you been wrong  
To just stop breathing without cause?  
When all is gone  
Can I choose to follow you?

## Random Starlight

Random starlight meets a blind eye  
Seeking undiscovered self-importance - you're very important - you're so important  
Pleasant distance finds me still  
Slightly awaiting what is getting closer - it's getting closer - are we getting closer?

The radio directs the hunters  
Into the shark aquarium  
Mother ship we're doing fine  
But somehow we lost contact

Noble fractions out of vague perceptions  
Blurring relevance of many details - many details - so many details

The radio directs the hunters  
Into the shark aquarium  
Mother ship we're doing fine  
But somehow we lost contact

An overdose of frequency  
A random line to lead the lost  
The radius was not defined  
And somehow we lost contact

As if it's slowing down the fall

## Prozac Junkies

Different light different meaning  
Not imagined not unreal  
Don't quit the friendship I'll agree  
Prozac junkies like you  
Prozac junkies like me

No control no reservation  
Auto pilots by themselves  
The invisible enemy  
Prozac junkies like you  
Prozac junkies like me

Give us the needle  
Take control  
Give us the needle  
Lead us to believe we're loved  
Prozac junkies always find a way  
Prozac junkies always find a way

I'm the origin drawing lines  
From the mirror to the stars  
Vectors through infinity  
And we'll be living on love

Give us the needle  
Take control  
Give us the needle  
Lead us to believe we're loved  
Prozac junkies always find a way  
Prozac junkies always find it's better like this  
Better like this better like this better this  
Better like this better like this better this

It's better like this

Give us the needle  
Take control

If only I could calm the dogs between my temples

And there is nothing you can change  
There is nothing you can do  
Just wait until it's over  
Wait until it's over

## Unzerstört

Will ich dich vergessen?  
Oder selbst vergessen sein?

Treibe ich taumelnd dir entgegen?  
Unzerstört und nicht allein?

Ich leih dir mein Licht, ich leih dir  
Mein Leben, vergiss mich nicht

Was nicht besteht ist nicht zerstörbar  
Nur allein sein geht nicht

Der Zusammenbruch ist nie passiert  
Ich bin bei dir, ich bin bei dir  
Der Zusammenbruch ist nie passiert  
Ich bin bei dir, ich bin bei dir

Betäube mich zur Unkenntlichkeit,  
Verbleie mich ganz im Rausch

Nie zuvor war ich dir näher,  
Nie zuvor habe ich gelebt

Der Zusammenbruch ist nie passiert  
Ich bin bei dir, ich bin bei dir  
Der Zusammenbruch ist nie passiert  
Ich bin bei dir, ich bin bei dir

Sinnlos denke ich, und bin ersetzt  
Sinnlos...

## Champagne for All

It is not that I cannot deal with it  
Or bear the punishment  
Give me the bullet I deserve  
But it wasn't my idea  
There is no room for error  
In a balanced house of cards  
How the hell did it collapse  
There was no wind at all

Someone must have cut the leash  
To corrupt the entertainment  
Maybe it was me  
But it wasn't my idea  
Northern light mentality  
Deadened inconceivable  
I really try to feel ashamed  
But I feel nothing at all

Take a drag take a drag  
May it stick inside your throat  
May it cause you to forget  
But it wasn't my idea  
Be aware of me again  
Switch off your smile  
Delete the file  
And look at me again

Champagne for all  
Champagne for all  
Add your insanity to mine  
And maybe there's a way  
Maybe we'll be safe

My desire is your desire  
Only in a different shape  
A feedback in the matrix  
But it wasn't my idea  
The mask is nice to wear  
Extremely accurate  
Und du weisst nicht  
Mit wem du sprichst  
Und nichts ist wie es scheint

These drops are killing me  
How come they taste so sweet  
What a meaningless joke  
(But it wasn't my idea)

Take a drag take a drag  
May it stick inside your throat  
May it cause you to forget  
But it wasn't my idea  
Be aware of me again  
Switch off your smile  
Delete the file  
And look at me again

All I am is the observer  
Of the total dissolution  
Of my ability to feel  
(But it wasn't my idea)

Champagne for all  
Champagne for all  
Add your insanity to mine  
And maybe there's a way  
Maybe we'll be safe

## Odyssey Into the Vacuum

Integrated landslide  
Paler state of mind  
Exhausted by rebellion  
That isn't one

A sculpture of a menace  
In company of fever  
Laugh about your prudence  
Only if you can

And the panic is ready to attack

Lock yourself in silence  
A noise of any colour  
Comfortable cohesion  
It's so much fun

Harboured in the limelight  
Ravaged by normality  
The world is yours to shun  
Quit thinking when you're young

And the panic is ready to attack

My silent odyssey  
Into the vacuum  
Make me forget this world  
Lead me to another one

My swaying odyssey  
Into the vacuum  
Make me reflect this world  
Throw me off I am almost there

You never disappoint me  
Conscienciously arranged  
The ways you paralyse me  
And you just begun

Like sorrow with a compass  
Dissolving into laughter  
A wreck of fond affection  
The error is creeping on

And the panic is ready to attack

I got you  
And I don't need anything else

I don't care  
I am not responsible  
I wasn't there  
I was not responsible

Let's stare each other down  
I bet I can stare you down

Force - counterforce  
To create a universe

Here and nowhere else  
To escape a universe  
Here and nowhere else

## I Hear the Drums

Coz it's not shown it won't  
Be seen  
By noone  
The prison guards will keep  
Your records safe  
Inside their pockets  
Keep your pages blank  
Keep your screen empty  
Your thoughts tied to the tracks

Coz it's not shown it won't  
Be seen  
By noone  
The prison guards will live  
On your addiction  
To analyse everything  
Analyse everything  
Analyse everything  
Analyse to keep them satisfied

I'm not yet lost I'm not yet lost...

I hear the drums  
I'm not yet lost

## Two Boats

Two boats struggle for balance  
In a weightless field of trance

Sway to stay protected  
Vanish never to return

I'm lost to the world  
Take me home don't take me home

Two boats ravaged by shockwaves  
Cover traces of rebellion

Spirits who know gladness  
Live beyond the prison wall

I am in here waiting  
Frozen in a monologue

I am out there waiting  
In search of undiscovered skies

Take me on take me on  
I am the cause I'm not the cause

Take me on take me home
