## Definition Power

We hold the course to glory and fame  
We are the shining inversion too pathetic, wondering  
You're on the wrong track, we're on the right  
If you don't change your horizon you will surely suffocate

You used to say you wanted to  
You used to say you needed so bad  
You used to say you wanted to  
Ignore the old you welcome in the new

Take on the shell you grow into  
There is a sense but not for you  
What a wonderful world  
What a wonderful world

Don't get us dazed with genuine truth  
You're complicating the plan  
And we don't blame noone with this

Don't read the small print  
Don't turn away  
Just be a copy and paste  
Just be a cosmopolitan

You used to say you wanted to  
You used to say you needed so bad  
You used to say you wanted to  
Ignore the old you welcome in the new

Take on the shell you grow into  
There is a sense but not for you  
What a wonderful world  
What a wonderful world

This is your grave now lie in it  
Look at the stars and rest a bit  
What a wonderful world  
What a wonderful world

We own the definition power  
We rule the situation  
You're a vector, a value, a visitor  
You're a parameter, a parameter

We own the definition power

You're a vector, a value, a visitor  
You're a parameter, a parameter

You don't need friends and enemies  
No self reliance, no abilities  
What a wonderful world

## Why

You put these thoughts in my brain  
None of these thoughts are here to remain  
Life passes on and leaves you behind  
Caress you one last time erase you from my mind

I kept my faith with your hologram eyes  
Spiraling reflections distorted in lies  
Infinite loops with dreams on repeat  
A missing dimension that never gets concrete

We came to an end but why do I care  
It wasn't my fault it wasn't my fault  
I'll see you again after the fall  
Wait for me tonight wait for me tonight

Stuck in a blind spot no truth to reveal  
You numb the trauma but you never heal  
Dark storms ahead I no longer care  
If suffering is our target I have to meet you there

We came to an end but why do I care  
It wasn't my fault it wasn't my fault  
I'll see you again after the fall  
Wait for me tonight wait for me tonight

## Burning Out

Don't throw in the towel  
They cannot knock you out

You're burning out to shock your company  
What a well thought-out masquerade  
It soaks you up you start to melt yourself  
In the role you play frantically

You burn enough / you lead all the beauty  
To burn for all  
You burn enough / you crave for permission  
To burn for a lifetime

In our headquarters we're fixing in advance  
The amount of love you'll receive  
You're lulled to sleep your dummy drowns your dreams  
In the fuel we add to the flames

## Synthesize Me

Start the play...

Synthesize me  
Make me your love and hate machine  
And I can serve you better  
Start the true  
Emotion scheme  
Till I'm no longer forced  
To keep my vital functions

Synthesize me  
And reboot  
I need to start again  
I need to make it different  
All unguarded  
All without  
The will to play along  
Benumb its futile feelers

Synthesize me  
Wash away  
The trash I'm piling up  
To mesmerize the moments  
I'll drop the needle  
My settings work  
No stunted interactions  
Nno doubts no paranoia

I'm half-alive  
My skin is intact  
I'm only staring at the blade

I'm half-alive  
My skin is intact  
I'm only staring at the blade

## Protected World

The walls are watching me  
But I am watching back

The notes are writing me  
The words are speaking me  
The time is spending me  
At least in my protected world

The facts are doubting me  
The choice is making me  
The rules are breaking me  
At least in my protected world

And I belong to everyone  
Content, polite and waiting  
I live and die in theory  
I'm what the gods believe in

The fire is lighting me  
The seas adoring me  
The path is finding me  
At least in my protected world

The hours are counting me  
The fight is losing me  
The part is acting me  
At least in my protected world

And I belong to everyone  
Content, polite and waiting  
I live and die in theory  
I'm what the gods believe in

The walls are watching me  
But I am watching back

And I belong to everyone  
Content, polite and waiting  
I live and die in theory  
I'm what the gods believe in

## 10.000 Meter Waves

The striking means  
The wise design  
The powerful arm  
The bottom line  
The muzzle for  
The raucous crowd  
I've heard enough  
To leave no doubt

I'm burning out I'm burning out  
I'm burning out I'm burning out

And tell the wind  
To concentrate  
To gear up for  
His righteous fate  
And tell the sea  
To writhe in rage  
To fall upon  
This golden age

I'm burning out I'm burning out  
I'm burning out I'm burning out

When I listen to myself I only hear minor chords  
Over and out!

Can you hear them rumbling?  
10.000 meter waves are coming on  
Have you made your final wish?  
10.000 meter waves are coming on

And tell the wind  
To concentrate  
To gear up for  
His righteous fate  
And tell the sea  
To writhe in rage  
To fall upon  
This golden age

And tell them all  
That's it's wrong that's it's wrong  
That's it's wrong that's it's wrong

## Sands

Don't believe the people  
I say  
Don't believe the people

Out there in the blue is the answer  
Out there in the blue is the answer  
Way beyond the cliff  
Riding on the wind

Out there in the blue is the answer  
Out there in the blue is the answer  
Right before your eyes  
Never saying no

How can you endure the noises  
And make it through your  
Sweaty nights without  
Grieving in the dark?  
Grieving in the dark?

Have you been muted?  
Are you melting away  
With the glaciers?  
Is there no further  
Use for your self-defense?

Don't believe the people  
Who are screaming and shouting

## Exit the Grey

When they argue endlessly, to conceal that nothing is done  
When I know my faith will falter, without touching anyone  
When I fail to understand, the news they're reading out  
When the rats are taking over the unsinkable

When their trivial hearts are set, on trivial souvenirs  
When the laughter is getting glamorous, while my lungs are filled with tears  
When the thumbscrews of regret, shut all my systems down  
When mortality is longing to be realized

Don't tell me to leave my abyss,  
Don't tell me to come to the surface  
Don't think there is a way to silence the rupture

Don't tell me to leave my abyss,  
Don't tell me to come to the surface  
Don't think there is a way to silence the rupture;  
To exit the grey

When the veil of ignorance, alights on my ideas  
When nobody pays attention if my nature disappears  
When they put me in the dark, for a verdict without trial  
When my will to breathe is fading in and out

Don't tell me to leave my abyss,  
Don't tell me to come to the surface  
Don't think there is a way to silence the rupture

Don't tell me to leave my abyss,  
Don't tell me to come to the surface  
Don't think there is a way to silence the rupture;  
To exit the grey  
To exit the grey

## Kein Mord

Über deinen Wolken hinter türen  
Über deinen Worten unter tieren  
Über deinem mut auf allen vieren  
Über deinem mut auf allen vieren

Zwischen deinen türen hinter Gedanken  
Zwischen deinen Fragen unter Schichten  
Zwischen deinen Fingern in Sekunden  
Zwischen deinen Fingern in Sekunden

Brennt der Verstand  
Brennt der Verstand  
Flackert die See  
Kein Anfang  
Kein Bestand  
Kein Bestand

Hinter deinen menschen überleben  
Hinter deinem rücken zwischen träumen  
Hinter deinem ende auf ein wort  
Hinter deinem ende auf ein wort

Unter deinem Schweigen überleben  
Unter deiner Mummer zwischen vielen  
Unter deiner Maske aus Mechanik  
Unter deiner Maske aus Mechanik

Brennt der Verstand  
Brennt der Verstand  
Flackert die See  
Kein Anfang  
Kein Bestand  
Kein Bestand

Niemand schweigt  
Niemand schreit  
Niemand leidet  
So schön wie du

Unter deiner Maske aus Mechanik  
Unter deiner Maske aus Mechanik  
Unter deiner Maske aus Mechanik  
Unter deiner Maske aus Mechanik

Über deinen Wolken hinter türen  
Über deinen Worten unter tieren  
Über deinem mut auf allen vieren  
Über deinem mut auf allen vieren

## No Tears

I won't stand in your way  
I'm not part of this  
Go on get absorbed  
I'm not part of this  
Black hole triggering  
At the back of your head  
Something is pouring out  
At the back of your head  
Floodgates open wide

Take it easy my friend  
Take a spoonful of that  
With your vitamins  
Take a spoonful of that  
Maybe it speeds up  
The way you come apart  
In your captivating style  
The way you come apart  
As the rhythm flows

No tears no tears no word too much  
Walk on walk on  
With all the things  
That you've achieved

In the cold of the night  
You're replaying it  
A hundred thousand times  
You're replaying it  
You fail to see the flaw  
Put your pen away  
The drama writes itself  
Put your pen away  
And let it happen...

No tears no tears no word too much  
Walk on walk on  
With all the things  
That you've achieved

The sand is trickling  
The sand is trickling  
Down the hourglass  
The sand is trickling  
The sand is trickling  
Down the hourglass

Down down down the hourglass

## Blessed

I am so obsessed  
With all your sacred gifts  
Your beauty surely is  
Designed to save my soul

And rescue from the grey  
My air, my sound, my substance  
My fate, my path, my inner  
My frozen labyrinth

And if it ends right here  
I won't resist the call  
No need for hesitation  
No joy I could have missed

I'll dive into the dark  
Forearmed for the last fight  
My purpose is fulfilled  
'Cause I'm blessed with your love

I am on your drip  
Wrapped inside your flames  
Floating in black water  
Filled with unknown hurt

Your lips my temple  
Your voice my soothing wind  
Your touch my morphine  
Your eyes - my infinity

And if it ends right here  
I won't resist the call  
No need for hesitation  
No joy I could have missed

I'll dive into the dark  
Forearmed for the last fight  
My purpose is fulfilled  
'Cause I'm blessed with your love

## Colder

Trace me down by the  
Dawn-breaking hills  
Where no thought  
Is ever wasted  
These tormented souls  
Will never prevail  
Never prevail  
Never prevail  
Never prevail

Trace me down by  
These uncertain fields  
As the days are getting colder  
Endless circles on the ice  
The air untouched and clean  
Kept silent by  
This unknown power

Trace me down by these  
Uncertain fields  
As the days are getting colder  
These tormented souls  
Will never prevail  
Never prevail  
Never prevail  
Never prevail
