## Flesh Menagerie

The night is young, so turn up the energy  
Alter the mood with a little chemistry  
Scenes yet to come ripe with possibilities  
You, you and me can spend the night in ecstasy

Our destination charted; new worlds to be explored  
Prepare to go to places you've never gone before  
Won't you come out to play in my flesh menagerie?  
All your fears will melt away as the night turns into day

In our rapture  
We are as one

Look into my eyes and realize the fantasy  
Dreams and desires made into reality  
Burning in my soul, etched into my memory  
Everybody knows three is really company

Our destination charted; new worlds to be explored  
Prepare to go to places you've never gone before  
Won't you come out to play in my flesh menagerie?  
All your fears will melt away as the night turns into day

See the light  
A new tomorrow  
Free your mind  
I will follow  
See the light  
A new tomorrow  
Just free your mind  
And I will follow

Our destination charted; new worlds to be explored  
Prepare to go to places you've never gone before  
Won't you come out to play in my flesh menagerie?  
All your fears will melt away as the night turns into day

In our rapture  
We are as one

## Hopeless

Out of love, thinking of  
Where did everything go wrong with us?  
There must be some better way  
I'm on my own, free to roam  
Who's afraid to be alone? I'm not  
There's got to be another way  
Cause some things are never meant to be

Real love is not for me  
Too much hurt and too much pain  
All I need is a lover's touch  
Real love is not for me  
In the end, it's all the same, you see  
Hopeless misery

Down and out, full of doubt  
Feeling like a stupid clown; I've cried  
That's why there is no other way  
I've been there, in despair  
You can't take me there again, my friend  
So please just go away  
Cause some things are never meant to be

Real love is not for me  
Too much hurt and too much pain  
All I need is a lover's touch  
Real love is not for me  
In the end, it's all the same, you see  
Hopeless misery

All the things that I regret  
All the things I should have said  
I can't forgive, I can't forget  
No, I'll never fall in love again  
I cannot bear the consequence  
And give me heart to another

Searching hard, near and far  
Won't stop till I've seen it all  
And done what comes to me along the way  
I tell you so, time will show  
And in the end, you'll know I'm right  
That I have found a better way

Real love is not for me  
Too much hurt and too much pain  
All I need is a lover's touch  
Real love is not for me  
In the end, it's all the same, you see  
Hopeless misery

## Perfect Stranger

Another perfect stranger  
Another opportunity  
Here comes that empty feeling  
Gonna make it go away

Into another bed I'm crawling  
Into another's arms I'm falling  
A dangerous game without a warning  
You will not see me in the morning

When will this game be over  
Or will it always be this way  
Cause now I'm one day older  
And still everything's the same

Another perfect stranger  
I do not know what's wrong with me  
I can't get rid of this feeling  
I can't make it go away

Into another bed I'm crawling  
Into another's arms I'm falling  
A dangerous game without a warning  
You will not see me in the morning

One day I will pay the price  
One more trip to paradise  
Been the bane of my whole life  
How I live is how I'll die  
Cannot stop although I try  
Lost control; I don't know why  
Nothing changes every time  
One more step to my demise

## Physical Education

The escapade has just begun  
An endless source of inspiration  
Only you know how to show me  
Physical education

Worlds are turning in my mind  
Cheap perfume and candlelight  
See the pleasure in my eyes  
Am I running out of time?

The energy is growing strong  
An exercise in self containment  
You are everything I dream of  
Miracle in slow motion

Worlds are turning in my mind  
Cheap perfume and candlelight  
See the pleasure in my eyes  
Am I running out of time?

The ritual has come and gone  
So sensual and entertaining  
You know how to make me feel good  
Physical education

Worlds are turning in my mind  
Cheap perfume and candlelight  
See the pleasure in my eyes  
Am I running out of time?

Worlds are turning

## Over

Don't tell me that it's over  
I can see the hurt in your eyes  
I want to say how much I'm sorry  
But you won't let me apologize

Since you've been gone, it's been one long sleepless night  
So please come home so I can hold you close and tight  
Cause I was wrong, but let me try to make things right  
A love like ours will not die without a fight

Why can't we start all over?  
We've been through troubled times before  
But this time's not like the others  
Now you're walking out the door

You're all I want; you're all I need  
What I've done is killing me  
I was wrong; can't you see?  
I'm begging you on my knees

You set my world on fire

Cause we were something special  
There's nothing quite like you and I  
Just say you'll think it over  
Can we give it one more try?

You're all I want; you're all I need  
What I've done is killing me  
I was wrong; can't you see?  
I'm begging you on my knees

I don't know what I was thinking  
But I was so, so mistaken  
For our love to have forsaken  
And your heart for granted taken

## Built for Pleasure

She's the finest thing I've ever known  
From up to her head down to her toes  
Shape of things to come  
She's a whole new breed  
One part flesh and blood  
One part technology

My desire engineered  
Your design - built for pleasure  
More woman than machine  
Silicon man-made heaven

So eager to learn and built to please  
With state of the art accessories  
She's my special one  
Perfect in every way  
Knows just how to have fun  
And always wants to play

When my day is over  
And I want to leave the world behind  
She makes everything all right  
With all options chosen  
And her functions reinitialized  
Watch her really come alive

My desire engineered  
Your design - built for pleasure  
More woman than machine  
Silicon man-made heaven

She's the finest thing I've ever known  
From up to her head down to her toes  
Shape of things to come  
She's a whole new breed  
One part flesh and blood  
One part technology

Built for pleasure

My desire engineered  
Your design - built for pleasure  
More woman than machine  
Silicon man-made heaven

## A Matter of Time

And there you were; your beauty caught my by surprise  
I held my tongue in silence, taken  
In all my life, I never dreamed someone like you  
Could be true; now I know it's you

Wherever you are, I'll be waiting  
I'm tearing apart anticipating  
It will not be long until you'll be mine  
You'll give me your heart; just a matter of time

Then you were gone; you disappeared right out of sight  
You were the one, above all, I knew  
You left a hole deep in my heart that will not heal  
The time has come to find you; I will

Wherever you are, I'll be waiting  
I'm tearing apart anticipating  
It will not be long until you'll be mine  
You'll give me your heart; just a matter of time

And there you are; I can't believe my own two eyes  
The day has come; I found you, it's true  
All this time, and now I finally realize  
My wish come true; now I'm here with you

Wherever you are, I'll be waiting  
I'm tearing apart anticipating  
It will not be long until you'll be mine  
You'll give me your heart; just a matter of time

I want you, I need you  
I've got to be near you

Wherever you are, I'll be waiting  
I'm tearing apart anticipating  
It will not be long until you'll be mine  
You'll give me your heart; just a matter of time

## Oblivion V2

Blow me away

What's the future have to tell us?  
Reveal the patterns in the chaos  
Discover what our dreams are made of  
Reach the boundaries of our freedom  
Tempting creature pure and fair  
Lips so red and skin so pale

Right now, you're the one  
Will you come and take me to oblivion?  
We can leave this world behind  
Show me the way  
Let's go be the one  
Take my hand and take me to oblivion  
I've had enough of space and time  
Blow me away

Yesterday, today, tomorrow  
The one act that's hard to follow  
With some time to spend down under  
Check out what's under the cover  
Simple pleasures never fail  
Like a hammer to a nail

Right now, you're the one  
Will you come and take me to oblivion?  
We can leave this world behind  
Show me the way  
Let's go be the one  
Take my hand and take me to oblivion  
I've had enough of space and time  
Blow me away

Blow me away

Feel our passion's burning fire  
Angels falling from the sky  
Never thinking all the while  
The more we live the more we die

Hurry up; there's no time  
Staring into heaven's eye  
It's so beautiful; powerful  
A supreme being sublime  
How wonderful; now I know  
What makes me feel alive

Lost in your paradise tonight

Hurry up; there's no time  
Staring into heaven's eye  
It's so beautiful; powerful  
A supreme being sublime  
How wonderful; now I know  
What makes me feel alive

Lost in your paradise tonight

Lost in your paradise

## 96 Degrees

"I'm scared..."

"96 degrees."

"Your time has expired."

## Perfect Stranger (Robot mix by Negative Format)

Another perfect stranger  
Another opportunity  
Here comes that empty feeling  
Gonna make it go away

Into another bed I'm crawling  
Into another's arms I'm falling  
A dangerous game without a warning  
You will not see me in the morning

When will this game be over  
Or will it always be this way  
Cause now I'm one day older  
And still everything's the same

Another perfect stranger  
I do not know what's wrong with me  
I can't get rid of this feeling  
I can't make it go away

Into another bed I'm crawling  
Into another's arms I'm falling  
A dangerous game without a warning  
You will not see me in the morning

One day I will pay the price  
One more trip to paradise  
Been the bane of my whole life  
How I live is how I'll die  
Cannot stop although I try  
Lost control; I don't know why  
Nothing changes every time  
One more step to my demise

## Physical Education (Day Job mix by Stromkern)

The escapade has just begun  
An endless source of inspiration  
Only you know how to show me  
Physical education

Worlds are turning in my mind  
Cheap perfume and candlelight  
See the pleasure in my eyes  
Am I running out of time?

The energy is growing strong  
An exercise in self containment  
You are everything I dream of  
Miracle in slow motion

Worlds are turning in my mind  
Cheap perfume and candlelight  
See the pleasure in my eyes  
Am I running out of time?
